CDC is supporting the critical work by providing funding and guidance.

Funding Awarded For COVID-19

- [COVID-19 Budget Fact Sheet](#) 

The Coronavirus Preparedness and Response Supplemental Appropriations Act of 2020 (PL 116-123) provided CDC with \$2.2 billion to support high-priority needs for the public health response to COVID-19. The CDC COVID-19 fact sheet provides an overview of CDC's support for COVID-19 response activities on federal, state, local, territorial and tribal levels. It also highlights CDC's current COVID-19 efforts.

- [CDC-RFA-TP18-1802 Cooperative Agreement for Emergency Response: Public Health Crisis Response](#)

CDC has awarded nearly \$730 million in funding under Components A and B of the cooperative agreement to the 65 eligible jurisdictions that are on the approved but unfunded (ABU) list for CDC-RFA-TP18-1802 to provide resources to prevent, prepare for, and respond to COVID-19. This funding is intended for state, local, territorial, and tribal health departments to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response

activities.

- [\(CK19-1904 2019\) Epidemiology and Laboratory Capacity for the Prevention and Control of Emerging Infectious Diseases \(ELC\) Cooperative Agreement](#)
ELC cooperative agreement has provided hundreds of millions each year to all 50 states, several large local health departments, and U.S. territories and affiliates to detect, respond to, control, and prevent infectious diseases.
- [CDC Coronavirus Preparedness and Response Supplemental Funding](#) 
This funding supplements an existing cooperative agreement to a few states and local jurisdictions identified as having the highest number of reported COVID-19 cases (“hot zones”) and jurisdictions with accelerating or rapidly accelerating COVID-19 cases. This award will support a range of activities such as lab equipment, supplies, staffing, shipping, infection control, surge staffing, monitoring of individuals, and data management.
- [COVID-19 Funding for Tribes](#)
CDC is taking a multifaceted approach to allocate COVID-19 funding to Indian Country. This approach aims to get public health resources out quickly during this declared emergency and enable broad access to the opportunity for COVID-19 resources across all tribal nations. This page describes funding opportunities to expedite the release of COVID-19 response resources to support tribal communities.
